Rafteikning hf. er þekkingarfyritæki sem býður þjónustu á öllum sviðum rafmagnsverkfræði; háspennu, lággspennu, öryggiskerfa, lýsinga- og lagnahönnun, stýritækni, tölvu- og fjarskiptatækni, hugbúnaðar og verkefnisstjórnunar.

Fyrirtækið hefur starfað frá árinu 1965 og ávallt verið í fararbroddi sem ein af stærstu verkfræðistofum á rafmagnssviði á Íslandi. Rafteikning hefur innleitt stjórn- og gæðakerfi í samræmi við ISO 9001:2000 til þess að viðhalda framúrskarandi fagmennsku starfsmennar og hefur fengið vottun frá British Standards Institution í apríl 2006.

Rafteikning hlaut norrænu lýsingarhönnunarverðlaunin árið 2006 fyrir lýsingarhönnun Lækningalindar Bláa Lónsins.

Rafteikning hf. is one of the leading electrical consulting companies in Iceland in the fields of power and control engineering, electrical installations and lighting design.

The company has operated since 1965, with a certified management system according to ISO 9001:2000, assessed and registered by the British Standards Institution as of April 2006. The major activities involve design and technical consultancy service in the field of electrical power generation, transmission, distribution, control, installation and planning.

Rafteikning was awarded the Nordic Lighting Design Award 2006 for the lighting design of the Blue Lagoon Spa & Clinic in Iceland.
